## VESSELS & ACCESSORIES

### Vessel Straps (U-Clamps)

#### UCL PVC SERIES: FEATURES

- Ideal for mounting PVC vessels.
- PVC material allow PVC housings to "breathe" and do not over compress.
- Easy mounting on any surface.
- Light weight and economical.
- Available in 2" and 2.5" sizes.

#### UCL SS SERIES: FEATURES

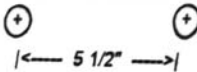

- Ideal for mounting \*S.S. and PVC vessels.
- Heavy duty, thick 304 S.S. material, rigid formed for strength and durability.
- Easy mounting on any surface.
- Economical.
- Available in 4" sizes only.

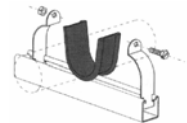

Pressure Vessels	Clamp Part No.	List Price
PVC 2000.2 Series	UCL PVC 2000	\$3.00
PVC 2500.2 Series	UCL PVC 2500	\$4.08

Pressure Vessels	Clamp Part No.	List Price
*4000.1S and *4000.6 SS Series	UCL SS 40.3	\$15.00

*\*Power wrap padding required. Sold in 25' rolls; \$0.00*

#### Clamp Mounting Instructions

Part #	Hole Spacing
UCL - 40.2	5 1/2" 
UCL - 40.3	5 1/4"
UCL - 40.9	5 1/8"

- 1) Drill two 3/8" dia holes in the mounting surface using spacing listed above. This spacing is from center to center of the holes and is very important in order to apply proper clamping pressure. Example: UCL - 40.2, 5 1/2" spacing
- 2) Place clamp over the housing, insert cushion spacer between the housing and mounting surface.
- 3) Install 3/8" dia bolts flatwashers and locking nuts.
- 4) Tighten enough to secure housing being careful not to over tighten.

**WARNING: Overtightening of clamps may cause damage or failure of housings.**
